London, UK

I'm an architectural designer with a tech-centric approach, blending culture and innovation. Equipped with a degree in Architecture and an MA focused in Digital Design, I specialize in integrating blockchain for transparent cultural preservation strategies and leveraging spatial tech to address social issues. From inclusive urban planning to advocating for sustainable architecture, my work extends to using technology to shed light on human rights abuses through impactful visual narratives and collaborations with tech-driven advocacy groups.

EDUCATION

2021- **MA Architecture at Royal College of Art, London**
